

Nicole Shropshire
Community Development Coordinator
Rally Foundation

Nicole Shropshire is the Community Development Coordinator for the Rally Foundation. Rally raises awareness and funds for children's cancer research through grassroots initiatives. As Community Development Coordinator, Nicole is responsible for event planning, speaking engagements, and assisting organizations with coordinating fundraisers and events.

Prior to joining the team at Rally, Nicole served as a YMCA camp director responsible for staff management, programs, discipline and parent communications, all within a tight budget. She has volunteered as a Project Uplift big sister to teenage girls and served on mission trips targeting underprivileged children in Romania, Kenya and throughout the United States. Through these life experiences Nicole developed a passion for advocating for children in need of a champion for their cause, children who do not enjoy the resources and support to stand up for themselves.

Rally Foundation is a perfect fit matching Nicole Shropshire's leadership skills, gifts and passions. She holds a BA in Communications with a minor in Human Development and Family Studies from Auburn University.
